

KJ Real Estate Team

Trusted advisors for Buyers, Sellers and Investors
Experienced in New Home Sales
Client Focused 8-person Real Estate Team

Choosing the right real estate advisor can make all the difference.

As principals of KJ Real Estate Team, Kai Brown and Jason Lee bring a perspective that extends beyond the typical real estate transaction. In addition to helping clients buy and sell homes throughout O'ahu, they have spent years working on some of Hawai'i's largest residential communities, collaborating with developers, lenders, industry partners, and thousands of local families navigating important housing decisions.

That experience provides clients with a unique advantage. By understanding how homes are priced, marketed, and positioned in the marketplace—from both the brokerage and development sides of the industry—Kai and Jason help clients make informed decisions with confidence.

Whether assisting a first-time buyer, a growing family searching for more space, an investor evaluating opportunities, or a homeowner preparing to sell, the KJ Real Estate Team is known for thoughtful guidance, clear communication, and a commitment to putting clients first.

Today, KJ Real Estate Team includes eight dedicated professionals who share the belief that successful real estate is built on trust, expertise, and relationships. The team combines innovative marketing, strong negotiation skills, and deep local market knowledge to help clients achieve their goals while making the process as seamless as possible.

We are honored to be recognized among Hawai'i's Top Performers. More importantly, we are grateful for the opportunity to serve the individuals, families, and communities who continue to place their trust in us.

Your goals are our priority. Your success is our measure of achievement.
