

Jahsiah "Sai" Aldana

RB-23598

With more than 13 years of full-time real estate experience on Oahu and Maui, Jahsiah has had the privilege of helping over 300+ clients achieve their real estate goals. His work spans residential resales, private developments, and home rehabilitations — from workforce housing to distinguished luxury estates — giving him a well-rounded understanding of the local markets.

Raised on Oahu from humble beginnings, he began working at age 16. These early experiences shaped his strong work ethic, dedication, and deep commitment to guiding clients with care and integrity. A lifelong island resident, he offers genuine, firsthand insight into Hawaii's neighborhoods and communities.

This foundation naturally led him to collaborate with respected developers, resulting in more than \$550 million in successful development transactions, including notable projects such as The Kapiolani Residence, Wailea Hills - La'i Loa, and Wailea Golf Estates II.

Jahsiah finds lasting fulfillment in supporting families and his community, always striving to offer steady guidance, knowledge, and a strong network to those he serves.
